

2011 Bavaria Cruiser 40 for sale

The **Bavaria Cruiser 40**, built in 2011, is a reliable and **well-equipped sailing yacht** designed for comfort and performance. With an overall length of 11.99 meters and a beam of 3.99 meters, this **three-cabin, two-head** vessel offers generous space for extended cruising or liveaboard comfort. Both heads are fitted with black water tanks (2 x 100L).

Powered by a dependable **Volvo Penta D2-40** engine (5000 hours) with a Sail Drive S130, the boat runs without complaints.

The hull and deck are in solid condition with a teak cockpit and **bathing platform**, giving the vessel a classic and elegant look.

A **bow thruster** enhances maneuverability, while **furling sails** (main into mast and staysail) ensure ease of handling.

The yacht is well-outfitted for safety and long-range cruising, with a life raft for 8 people, full safety gear.

Navigation is handled via an **8-inch Garmin** touchscreen connected via NMEA 2000, Raymarine wind instruments, and a two-way Naviom **AIS** system.

Comfort features include a sprayhood, large bimini, **Webasto** heater, a **gas grill**, and ample fresh water capacity (460L total).

Electrical autonomy is supported by 2×200Ah **gel batteries** and 2x100W **solar panels**.

While the engine start panel, autopilot, and bow thruster propeller require repair or replacement, the yacht remains in very good operational condition, with sails and rigging ready to go.

Location: Kavala, Greece
