

## 2016 Beneteau Oceanis 45 never chartered

The **Beneteau Oceanis 45** (2016) is an exceptionally well-cared-for yacht, owned and sailed exclusively by one experienced couple, **never chartered**, and meticulously maintained.

**Sailed only a few weeks each spring and autumn**, and always stored on the hard during summers and winters under cover, she presents in **remarkable condition**.

With new **Eko Sails from 2023**, a powerful Yanmar 54HP engine serviced annually, and a top-spec Flexofold folding prop, she combines speed, efficiency, and reliability. At sea she performs beautifully, comfortably making **8.5 knots in 20 knots** of wind and handling light airs with ease thanks to her generous sail plan. Every element reflects the owner's dedication to quality and upkeep, from her **2024 gel battery** banks to the renewed running rigging.

On deck, the Oceanis 45 is designed for both performance and comfort. The sturdy arch, which doubles as mainsheet track support, keeps lines clear of the cockpit while providing structure for the sprayhood and bimini.

Two Solbianflex solar panels discreetly mounted on the coachroof supply ample power at anchor, while the spacious cockpit- with its folding bathing platform, large lockers, and dual helm stations-offers safety and practicality.

The electric windlass with **chain counter, cockpit-controlled genoa track**, and **electric halyard winch** make sail handling effortless. Every detail has been thoughtfully upgraded, from leather-covered wheels (new in 2023) to the easily maintained Danish-oiled cockpit table. This yacht is ready to cruise in comfort without compromise.

Below deck, the yacht boasts the highest specification available from Beneteau at the time of purchase, including **air-conditioning**, refined interior finishes, **hidden lighting**, and even dedicated wine lockers.

The **three-cabin, two-head** layout is enhanced by a spacious saloon with convertible seating, a well-equipped galley with ample refrigeration, and a luxurious forward owner's suite with private ensuite.

Navigation is state-of-the-art, with the **complete B&G electronics** package featuring central and dual helm displays, **autopilot, AIS**, and triplicate data feeds. Every comfort and cruising necessity has been considered- from the **Fusion sound system** to extensive galleyware, linens, safety equipment, and spares, all included in the sale.

VAT is paid within the EU, and with her unlimited Greek transit log, this yacht offers not only exceptional cruising performance and comfort but also complete peace of mind for her next owner.

**Location: Preveza, Greece**

Flag: UK

**EU VAT paid**

- LOA: 13.94 m
- Beam: 4.5 m
- Draft: 2.15 m (deep cast iron keel)
- CE Certification: A (Ocean)
- Water tanks 2X150L
