

2025 Fountaine Pajot MY6 motor catamaran. New!

Description

The Fountaine Pajot MY6 motor catamaran, a luxurious model under construction, is designed to set a new standard in comfort, style, and performance on the water. This stunning 46-foot yacht, expected to be ready by May 1, 2025, combines the spaciousness and stability of a catamaran with the speed and sleek lines of a motor yacht. Equipped with twin VOLVO IPS engines and an intuitive joystick control, the MY6 ensures smooth handling and exceptional maneuverability, making it ideal for both seasoned sailors and newcomers. The design includes expansive outdoor and indoor areas that create an inviting ambiance for socializing, dining, and relaxation.

Onboard, the MY6 provides a wealth of high-end features tailored to create an exquisite and convenient living experience. The interior is outfitted with luxury fabrics in various hues, offering both Pure White and Coral tones, and features elegant teak finishes. The master cabin and guest cabins are designed with full-height portholes for natural lighting and are equipped with electrical fresh-water toilets. For additional comfort, the MY6 includes a 40,000 BTU air conditioning system, along with entertainment options like the BOSE audio package in the salon, cockpit, and flybridge, ensuring that each moment on board is enjoyable. To enhance the yacht's visual appeal, underwater lighting and stylish deck details are also included.

The MY6 also stands out for its extensive list of optional upgrades. These include a hydraulic stern platform, premium Garmin navigation systems, and a 180-liter watermaker for long journeys. For ultimate convenience and enjoyment, the flybridge boasts a galley with a Kenyon electric grill and refrigerator, transforming it into a versatile space for hosting. From its superior layout to its advanced technology, the Fountaine Pajot MY6 is crafted to deliver luxury and ease, setting the scene for unforgettable adventures on the open sea.
