

## **An excellent boat for couples Beneteau Oceanis 411**

Beneteau Oceanis 411 for sale. This is a perfect boat for couples or a family ready to start an adventure. It is spacious enough for two people, with plenty of equipment and room for guests or family can live here just fine! There are three cabins with a double bed, of which the front one is large, airy, and has a large attached lavatory.

The boat is very secure, even on heavy seas. With a weight of almost 10 tonnes, it takes a bit to move it significantly. It is not a racing boat, but on our ocean voyage, we have several times had an average speed of 6-6.5 knots over a 24-hour period. With the wind from the side, the boat manages a fine 6.5 to 7.5 knots with a comfortable heel and up to 8 to 8.5 if you want to sail harder. With the engine, the boat makes approx. 5.3-5.6 knots at 2 liters per hour and approx. 6-6.5 at approx. 3 liters per hour. The maximum speed with the engine is approx. 8-8.3 knots. The diesel tank of 150 liters gives a range with the motor alone of approx. 360 Nm.

The mainsail is well-maintained, and the foresail is absolutely fine, except that the canvas is quite tired. It has several smaller holes and tears that we have taped

over. The sail is fully usable but should probably be updated one of the following seasons. Optionally, you can sew on new UV cloth. We had a sailmaker take a look at the sail in March, and he said the sail would probably last longer with the new UV fabric.

The boat is handled well single-handedly since everything leads to the cockpit. We have sailed a lot alone (with one of us sleeping below deck), and it works just fine with the autopilot. Everything you need is to steer the sails and boat in the cockpit. The boat has a large 12 inch chart plotter (new price 50k) which, together with AIS and rows connected, gives a good picture of the traffic around, even with poor visibility.

We had the diesel tank professionally washed at the end of August 2022. Then two large inspection hatches were also installed in the tank. The rig was checked in March 2022

The batteries last for running a refrigerator and other loads for about 2 days without charging, and the solar panels charge enough to keep the batteries charged as long as the sun is shining.

The boat is currently in the south of Sardinia but is sailing towards San Remo in the coming weeks. It can also be sailed to other areas in reasonable proximity by agreement.

Norwegian VAT has been paid, and the boat is registered in the Norwegian ship register and can be mortgaged if necessary.

### **Known errors/missings:**

1. Leaks around some windows and longitudinal exterior teak molding - these will try to improve in the next few weeks
2. Small diesel leakage - about 0.5 dl per 24 hours of engine operation
3. The windows are quite cracked, and the plexiglass should probably be replaced
4. Various blemishes all around - as expected from a 24-year-old boat
5. Teak in the cockpit is tired
6. The covering material on the bathing platform is tired and will be replaced in the coming weeks

## Equipment

NOR 11603

NOR Rating 0.831

Mainsail Quantum 403-201405261932

Genoa Elvstrøm 403-201405101919 (tired)

New mast 2012

New worm drive in mast (2019)

New propeller shaft, sleeve seal, and bearing 2016

New bevel fittings 2019 (Truedesign, composite)

New life raft 2020 (4 people)

Radar Raymarine Quantum (new 2019)

Plotter Raymarine Axiom Pro 12 RVX (new 2020)

Raymarine CPT-120 gives bronze throughout (new 2019, DownVision)

Raymarine AIS 650 Class B AIS Transceiver (New 2019)

Sprayhood + bimini (new 2019, supplied by Alf Hansen)

Washing machine Candy 4 kg (new 2019, w/ own water supply from wharf)

Nasa battery meter with 200A shunt (new 2019)

Autopilot Raymarine ST 9001

VHF sailor

Epirb/ emergency bearing transmitter (needs new batteries)

Satellite phone

Cool box 160 liters with cooling accumulator

Ebersprecher 5kW diesel heater

2 kW heater on cooling water (switched off due to leakage)

The stereo sound outside/inside with Bluetooth

Led lights

375 Ah consumer battery (New 2020)

90 Ah starter battery (new 2019)

Battery charger

3 pcs 100 W flexible solar panel (new 2022)

Skanbatt SML2430 MPPT solar controller 12V/24V - 30A (new 2019)

Anchor w/ 50 m chain, electric winch

Extra anchor

150 l diesel tank (cleaned Aug 2022, inspection hatches installed)

550-liter water tank

Large cabin forward (because the shower/wc is in the bow)

2 double cabins aft

Toilet in front with electric pump

Toilet aft manual

h/c pressurized water + manual seawater pump in galley

Gas stove with 2 burners

Gas alarm

Remote gas shut-off from galley

Manual and automatic bilge pump (new 2019)

Falls and joints (new 2019)

Drive anchors (new 2019)

Fenders, mooring ++

A dinghy and 13.5 hp engine can be bought with the boat if desired

It comes with a 4hp Yamaha two-stroke which is tired but works
