

Bavaria 39 Cruiser for sale in Greece

The **Bavaria 39 Cruiser**, a 2006 model, is a highly popular family sailing yacht, known for its spacious and well-designed interior.

Powered by a **Volvo Penta D2-40** engine with 40 HP and just **2200 engine hours**, this boat is built for efficiency and reliability. The fuel tank holds 210 liters, and the sail drive is paired with a **3-blade propeller** for smooth sailing.

The electrical system is robust, featuring four batteries (three 140Amp Hr and one 70Amp Hr) with recent replacements in 2020 and 2023. It also includes **two inverters** (2000W and 650W), **solar panels** with an automatic light controller, and a shore power connection, making it well-equipped for both long voyages and comfortable stays at anchor.

The rigging is equally impressive with a Seldon aluminum mast, fractional rig, and in-mast reefing, all controlled from the cockpit. The **main sail and furling genoa were replaced in 2017** and remain in excellent condition.

Navigation is handled through **Raymarine C70 electronics**, including **radar, autopilot, and AIS**, ensuring a safe and smooth journey.

Safety equipment includes a **2023 liferaft**, six life jackets, multiple fire extinguishers, and an electric/manual bilge pump.

The yacht's interior sleeps six comfortably across **three double cabins**, with additional space for two in the saloon. The galley is practical with a two-burner gas stove, oven, refrigerator, and double sink, and the overall atmosphere is warm with a light mahogany finish.

This Bavaria 39 Cruiser has been meticulously maintained, presenting a turnkey option for those seeking a well-appointed, spacious cruiser.
