

Beneteau Oceanis 393 for sale in Malta

The Beneteau Oceanis 393 Clipper, a 2003 model, is a beautifully maintained sailboat measuring 11.94 meters in length, with a beam of 3.96 meters and a draft of 1.88 meters. This vessel, registered in Valletta, has had only two owners from new and is in excellent condition, having undergone numerous upgrades to ensure it remains in top-notch shape.

The boat offers a comfortable layout with three spacious cabins and two shower/toilet compartments, making it perfect for extended cruises or living aboard. Powered by a 55hp Volvo Penta D2 engine with 1184 engine hours, it cruises smoothly at 7.5 knots. The in-mast mainsail and folding steering wheel enhance its sailing performance and ease of handling.

Significant upgrades include a new Victron system with a battery charger and inverter, new batteries, and two 180W solar panels that make the boat self-sustaining without the need for shore power. It also features two water tanks and a black water holding tank for added convenience.

Navigation and electronics are Simrad 9" GPS/Fishfinder in the cockpit, autopilot,

radar, depth sounder, and windfinder. The exterior of the boat has been enhanced with new 8mm thick teak decking and underwater LED lights, while new ropes throughout ensure reliability and safety.

The boat also comes with a berth rental agreement with a local marina for vessels up to 12 meters. Currently on dry dock for scheduled maintenance, this Oceanis 393 Clipper will be sold ready to launch and sail for the next two-year period. The price reflects the extensive upgrades and impeccable condition of the vessel, with no expense spared.

Location: Malta
