

Beneteau Oceanis Clipper 321 for sale in Malta

Description

The **Beneteau Oceanis Clipper 321** is a 1998-built sailing yacht designed for comfortable coastal cruising. She features a robust GRP monohull construction and a well-maintained Lombardini 23kW inboard diesel engine installed in 2005. With a cruising speed of approximately 7 knots, the yacht is equipped for smooth sailing in favorable weather conditions.

The rigging, including mast, boom, and stays, is reported in good condition, and she carries a main sail and genoa on a roller reefing system, suitable for versatile sail handling. A GT Inflatable tender with a Suzuki 2.5Hp 4-stroke motor extends her utility for short shore excursions.

The boat is outfitted with essential modern equipment and thoughtful onboard amenities. The yacht includes comprehensive navigation tools such as a fixed VHF radio, GPS, autopilot, and a Raymarine ST40 echo sounder.

Safety is enhanced by multiple fire extinguishers, a personal EPIRB beacon, and bilge pumps, while comfort is ensured through a galley with a gas oven, Magma BBQ, in-built refrigeration, and a portable air conditioning unit.

The electrical system is supported by deep-cycle batteries, a solar panel, and a Dolphin battery charger, making her semi-self-sufficient. This vessel presents as a well-maintained and ready-to-sail option for sailors seeking both performance and leisure in a manageable and seaworthy package.
