

Blue Water Cruiser Bavaria 42 Ocean with center cockpit

The magnificent “Blue Water Cruiser”, fully equipped, with a spacious central cockpit and master bedroom, comfortable and convenient, is for sale.

The luxury boat is designed for both calm sailing and life in the harbor and long journeys. Priority is given to the convenience of living rather than unusual design solutions and large sleeping capacity.

The luxurious aft cabin is equipped with a large bed, storage areas, and direct access to a private toilet and shower room.

The exceptionally spacious aft cabin is truly luxurious, with a king-size bed, a private lavatory with a separate shower, and plenty of storage space.

On the port side, there is a longitudinal galley with many work surfaces and a spacious refrigerator, which is convenient to use even while sailing.

A large friendly company will have a great time in an ample salon with comfortable sofas and a big table.

The classic navigation table can be used for remote work.
The large forward cabin has a large berth, storage space, and its own toilet.

The central, well-protected center cockpit of the Bavaria 42 Ocean will keep you comfortable and safe.

Bow thrusters help with mooring in narrow harbors, and a twisting mast makes it easier to steer the sail. The boat is comfortable to drive, even a small crew can handle it.

Bavaria 42 Ocean has a third owner who offers it for sale. The boat is in excellent condition and is kept warm in Pohja municipality, an hour from Helsinki / Finland.
