

De Groot 35 steel motor cruiser

The 1986 **De Groot 35** motor cruiser is a **solidly built Dutch steel vessel**, ideal for comfortable liveaboard life. **Extensively refitted between 2021 and 2026**, it offers a refreshed and highly practical interior, including an enlarged galley designed for improved storage and ease of use.

With an impressive **2-meter headroom** throughout, the boat feels spacious and airy. Fuel capacity is approximately 500 litres, with 300 litres of water storage, supporting extended cruising or **full-time living aboard**.

The interior layout is thoughtfully arranged to maximize comfort and versatility, featuring a forward double V-berth, a **generous aft double cabin with a wardrobe**, and a convertible dinette that provides additional sleeping space, accommodating up to 4-6 people.

The vessel includes a head with a sea toilet and basin, along with modern conveniences such as hot and cold pressurized water, refrigerator, and electric hob.

Powered by **twin Peugeot 55hp diesel engines** with shaft drive and **newly fitted stern glands** (March 2026), it is equipped with essential navigation tools

including VHF-DSC radio and **autopilot**, as well as a 12V electrical system supported by three engine-charged batteries and a 100W solar panel.
