

Explorer Hartley Boat 43DS for sale

Insulated ferrocement long-distance sailboat Hartley Boat 43DS affordable for long stay.

We have lived in the boat 2 adults and 2 children, for a year – as it has everything you need in everyday life. The boat has a layout that gives a feeling of spaciousness, as well as room to retreat a little. The vessel is equipped with a kitchen/galley with fridge, hob, and oven, bathroom with shower. Two bedrooms at each end and two sofa groups/living areas are spacious and cozy. There is a small dishwasher in the kitchen and arrangements for a washing machine. The yacht is well insulated and keeps the temperature well even in cold seasons.

The boat is an excellent long-distance sailing boat with much newer equipment, originally built to sail north.

- Volvo Penta md40 fuel stingy engine. 2-3l per hour at cruise speed.
- 1200l fuel tanks!
- 1000 liter water tank!
- 1000 liter septic tank!
