

Fairline Squadron 58 for sale in Greece

Description

The Fairline Squadron 58, named "Sea Es Ta" is a well-maintained flybridge yacht built in 2012. It is equipped with 2 Volvo D13 900hp EVC-D engines with only 504 hours of usage. This yacht offers a range of extras, making it an ideal choice for comfortable cruising. It is currently moored in Corfu, Greece, with mooring fees paid until April 2, 2024. The mooring package includes complimentary Wi-Fi, one car parking spot, solid waste disposal, 24-hour security, 30 days of free winter docking, and access to toilet and shower facilities. However, electricity and potable water come at an extra charge, with prices subject to fluctuation based on provider rates.

The boat received full servicing in April 2021, with maintenance performed exclusively at a Volvo Penta official service center. Due to circumstances such as the COVID-19 pandemic and the war in Ukraine, the yacht has not been operated recently, but it has been well-taken care of by a dedicated team of two people who have ensured regular ventilation, engine startup, and cleaning.

The yacht offers three guest cabins and one crew cabin, with the crew cabin currently used as a storage compartment. It provides spacious relaxation, lounge, and chill-out areas across three decks, guaranteeing ample entertainment opportunities.

The yacht is registered under the flag of Delaware state, USA, and it comes with an insurance policy valid until November 16, 2023. It has had only one owner and is operated by a dedicated captain. This yacht has never been chartered, and VAT is currently unpaid. It awaits its new owners, offering a luxurious and comfortable cruising experience in the beautiful waters of Corfu, Greece.
