

Jeanneau Sun Fast 39 for sale in Croatia

Jeanneau Sun Fast 39, 1991, is a well-maintained vessel that has seen significant upgrades in recent years, ensuring its excellent condition. It features a hull length of 11.56 meters and a width of 3.89 meters, offering a spacious layout with **three separate cabins**, a lounge, a kitchen, one bathroom, and a storage room.

Powered by a reliable **Yanmar 4JHE** internal diesel engine, there are two 80 m² sails, an additional 98 m² spinnaker, and an **upgraded autopilot system**—the computer-controlled **Raymarine EV-200**, which enhances safety by maintaining a steady course without requiring constant crew input.

Anchoring is secure with a **26 kg Wasi stainless steel anchor** and a 50-meter-long, 10 mm thick chain.

New electronics and other key upgrades, such as a **protective sprayhood**, **bimini cockpit**, **leather cushions**, and modern navigation equipment, add to the vessel's functionality and comfort.

The boat's interior is thoughtfully designed for both convenience and leisure. The

spacious C-shaped lounge transitions seamlessly to the first cabin and kitchen. It features a large table accommodating six people, which can also be converted into a berth.

The kitchen is equipped with a double sink, fresh and saltwater faucets, a hidden gas oven with 2 burners.

The sailboat originally had two bathrooms, but one was converted into a storage space for tools, diving gear, and extra sails. The remaining bathroom now features a modern **toilet (2023)** and a shower with hot water provided by a **220 V heater** or a heat exchanger linked to the Yanmar engine.

The three cabins each have double berths, wardrobes, and washbasins (in the front cabin), as well as windows for fresh air and natural light, ensuring comfort for extended journeys.
