

## Jeanneau Sun Odyssey 33i for sale in Greece

### Description

The **Jeanneau Sun Odyssey 33i** (2011) is a well-maintained and thoughtfully upgraded sailing yacht that perfectly blends performance, comfort, and reliability.

Powered by a Yanmar 3YM20 engine, she offers efficient cruising and easy handling, ideal for both coastal sailing and longer passages. Her original rigging remains in good working condition, with only slight UV wear on the mainsail, while the genoa is in fine shape.

The deck and cockpit are fully equipped for convenience and safety, featuring a Lofrans X2 electric windlass (2024) with wireless remote, Rocna 20kg anchor with 50m of 10mm chain, and eight fenders with socks.

Additional practical details include a stern shower, wooden gangway, standard rear step platform, and 400W bifacial solar panels, ensuring energy efficiency and comfort at anchor.

Below deck, the Sun Odyssey 33i offers a warm and functional living space. The salon and galley include a stove, oven, fridge with freezer compartment, and sink, while the sound system provides entertainment both inside and out.

Electrical systems are robust, with shore power, a 1000W inverter, battery charger, **new 300AH service battery bank** (2025), and **A/C for onboard comfort**.

Navigation is well-supported by a **Raymarine ES7 Hybrid Pro chartplotter**, **autopilot**, VHF radio, and full suite of navigation lights and instruments.

Safety is also prioritized, with a life raft (6-man), EPIRB, life jackets, fire extinguishers, and an emergency tiller. Notable upgrades, including a Jabsco electric toilet (2020) and extended bow roller, make this Sun Odyssey 33i a turnkey cruiser- ready to sail and enjoy immediately.

**Location: Lefkada, Greece**
