

Naver 29 great sailboat with newer engine

Great sailboat with a newer engine with low hours.
Sailed a lot with it after I bought it this spring, without any problems.
New very good engine with low consumption, sail in good working condition.
Furling foresail, mainsail with windlass, and three reefs.
Slightly worn sprayhood, but tight and functional.
Added shore current with several contacts in the boat. led lighting in the boat, and USB connectors.
Well over most of the electrical in the boat, with a new switch panel installed.

Equipment

Autopilot. TV with Chromecast, compressor freezer/refrigerator.
Fishing rod holders and 1 downrigger with 3.5kg weight.
Gas hob with 5kg gas canister.
