

Never chartered Bali 4.0 for sale in Malta

The **2017 Bali 4.0** is a meticulously maintained catamaran, **never chartered**, and currently flagged and located in Malta.

This 11.93-meter yacht boasts a spacious beam of 6.72 meters and a shallow draft of 1.12 meters, ideal for navigating various water conditions.

Powered by two reliable **Yanmar 40CV** diesel engines, the vessel is built for both performance and efficiency.

The last antifouling was completed in June 2023, ensuring the hull remains in **excellent condition**. With its innovative open-space design, the Bali 4.0 features a saloon and cockpit that seamlessly integrate through a large tilting glass door, transforming the indoor area into an outdoor terrace that offers stunning panoramic views.

Accommodation onboard the Bali 4.0 includes **four cabins with double beds** and en-suite heads, making it comfortable for up to 10 guests. The well-equipped galley, complete with a stove, oven, refrigerator, and ample storage, is designed for

extended stays on the water. The spacious saloon provides plenty of seating for dining or lounging, while the fore and aft cabins offer hanging lockers and additional storage.

The catamaran also boasts **modern electronics**, including a **Raymarine navigation center, radar, GPS plotter, and AIS, all of which were upgraded in 2023**.

The reversible **air conditioning**, powered **by solar panels** and a **10kW Onan generator,** ensures comfort in both the cabins and the saloon.

On deck, the Bali 4.0 is outfitted with a wide range of amenities to enhance the sailing experience. The flybridge is equipped with a captain’s seat, steering wheel, and a space for sunbathing.

Electric winches simplify sail handling, and the rigging includes a **new fully battened mainsail and a roller-furled Genoa**.

Additional features such as a **new dinghy**, cockpit shower, and a **6hp outboard** engine make this catamaran fully equipped for both leisurely cruising and more adventurous voyages.

Recent updates, including new folding props, sail drive bellows, and anti-fouling, ensure the yacht is in top condition and ready for the water.

The boat can be delivered up to 500 nm after prepayment.

NEVER BEEN CHARTERED

Flag: Malta
