

Sailboat MakTEN 33 feet with large cockpit and large cabins

The boat requires some investment of money and time, so I’m wondering if anyone is interested in doing this in the fall. Work needs to be done on the teak deck, railings and varnishing in general. Price is reduced now, for more details contact me.

MakTEN is a boat with a large cockpit, spacious cabins and a wide stern.

Modern hull and retractable keel.

The price of a new boat in 2007 was 1.2 million

This is a reliable, high-quality, solid boat.

Updates 2017-2019 (Previous Owner)

- Sewn/repaired sails
