

Winga 87 for sale in Greece

The **Winga 87** (1978) is a truly versatile yacht that masterfully combines the performance of a true sailing boat with the spaciousness and comfort of a motor cruiser. Built to meet international offshore sailing regulations, it offers superb stability, easy handling, and a safe, self-draining cockpit. Thanks to her sleek underwater profile, fin keel, and efficient sail plan, the **Winga 87 delivers impressive sailing performance**, even achieving a 90° tacking angle.

Above the waterline, she offers full standing headroom, a generously sized Owner’s Cabin, and a **large bathroom with a separate shower**, all within a robust, high-quality structure.

Every detail of the Winga 87 reflects a commitment to quality and durability, making her a smart and secure investment. Her hand-laid fiberglass hull, Divinycell-cored deck, and solid teak interior are designed for long-term strength and comfort.

With superior ventilation systems, exceptional insulation, and heavy-duty hardware throughout, life aboard is both practical and enjoyable. A long list of equipment—including hot water systems, a full galley with a gas oven, refrigeration, and sailing gear ensures that she is ready for adventure right from the start.

The Winga 87 offers a rare blend of sailing prowess, motor cruising comfort, and Scandinavian craftsmanship — a yacht built for serious sailors who value quality and versatility.

Extensively upgraded between 2018 and 2023, this Winga 87 features modern navigation and onboard systems, including a Garmin GPSMap 7410 plotter, NMEA 2000 network installation, new electrical systems, and a Webasto EVO diesel heater for year-round cruising comfort.

The yacht has been fitted with a **new set of high-performance sails in 2019**– both the mainsail and roll genoa made of durable cruising laminate- and additional improvements include shore power connection, a **100W solar panel, new batteries, a water heater** connected to the engine and shore power, and a dinghy package with a 5 hp Mercury outboard.

With thoughtful additions like an **autopilot, pressurized hot/cold water system, new cockpit cushions, upgraded cooler**, and dining table for four, this Winga 87 is ready to offer her next owners a blend of traditional craftsmanship, modern equipment, and outstanding sailing performance.
