

Bavaria 50 for sale in Greece

Description

Bavaria 50, built in 2000, offers a comfortable and well-equipped cruising experience. This **private yacht (second owner for 20 years)** is in a good condition and ready for new adventures. It features a spacious layout with 3 cabins, 2 head + 1 shower, making it ideal for extended voyages or family sailing.

The yacht is powered by a reliable **Volvo Penta 77 HP** engine with approximately **3500 engine hours**.

Navigation and comfort are ensured with a **full Raytheon plotter system** (including wind and depth), **autopilot, radar, VHF transmitter, bowthruster**, and a high-tech furling sail set from 2018.

Additional highlights include an **electric windlass**, Rocna anchor with 80 meters of chain, and a sturdy lead keel.

The cockpit is both practical and inviting, featuring a table, lighting, and custom-made cushions. A sprayhood, bimini with sun blinds, and teak deck (due to be replaced with polyester this winter-negotiable) add to the yacht's usability and aesthetic appeal.

The galley is fully stocked with a **fridge, deep freezer**, oven with a 2-burner stove, and **full kitchen inventory**.

Power supply is supported by **solar panels and multiple batteries**, including dedicated ones for the bowthruster.

Extras such as a dinghy with Honda outboard engine, spinnaker, crane for dinghy, stereo with inside and outside speakers, and onboard tools make this yacht ready for turnkey cruising.
