

2016 Beneteau Oceanis 45 Cruiser

Description

2016 **Beneteau Oceanis 45 Cruiser** is thoughtfully equipped for comfortable and capable sailing. She has **four spacious cabins and two WC heads**, plus a single waste tank on the starboard side. The hull measures about 13.85 m in length and has a beam of 4.49 m, with a draught of 2.27 m, making her suitable for both deeper anchorages and solid offshore cruising.

The sail plan includes a full-batten mainsail and half-batten genoa, rigged on a mast that reaches roughly the same height as her length.

Propulsion is provided by a **Yanmar 4JH57** engine, with a Yanmar SD60 sail-drive. Fuel capacity is 200 litres, and her fresh water tank holds 250 litres.

Key features adding to her comfort and performance include **bow thruster, autopilot**, sprayhood, and bimini, plus modern navigation and electronics, including **dual B&G Zeus 7** displays, Triton panels, and new dual **AGM Exide EP450** batteries (motor battery also replaced in August 2025).

The **dinghy with a Honda BF 2.3hp** (4-stroke) motor was also acquired in August 2025, making the boat ready for both harbour duty and exploring ashore.

Internally, the Oceanis 45 layout offers a generous living space. All cabins are fitted with fans for better airflow. The galley includes a refrigerator and sufficient storage to provision for extended trips. Entertainment and safety are well considered with a CD/radio player, snorkeling gear, inverter, etc. The toilets are manual Jabsco units.

Beneteau Oceanis 45 presents as an excellent option for anyone seeking a well-equipped, family-friendly cruiser, capable of both coastal sailing and longer passages.
