

Finnsailer 35 project for sale in Greece

Description

The Finnsailer 35 for sale initially aimed to undergo a complete electric conversion, along with the addition of a new pilot house and a spacious open interior ideal for living and cruising around the Greek islands. This ambitious endeavor requires someone unafraid of challenges, possessing a passion for problem-solving, and genuinely dedicated to realizing their dream of a custom-made boat.

The boat features a robust hull and well-maintained rigging, including a roller boom. Notably, the interior offers impressive headroom for its size, with a height of 195 cm, while the new pilot house provides even greater space at 205 cm.

The pilot house, constructed entirely from fiberglass, features a new sliding door. Due to the poor condition of the old motor, it has been removed, although there is potential for restoration. The outdated interior has been stripped away, and the hull was meticulously cleaned of mold before being treated with epoxy primer. A new large bed has been installed using aluminum industrial profiles, and a wooden ramp has been constructed to facilitate ease of access during renovations.

Materials such as plexiglass for the pilot house finishing, fiberglass, and various other necessary instruments and materials are included in the Finnsailer 35 for sale package.

- Hull Type: Long Keel
- Rigging Type: Masthead Sloop
- LOA: 35.00 ft / 10.67 m
- LWL: 29.50 ft / 8.99 m
- S.A. (reported): 360.00 ft² / 33.45 m²
- Beam: 10.25 ft / 3.12 m
- Displacement: 14,000.00 lb / 6,350 kg
- Ballast: 4,000.00 lb / 1,814 kg
- Max Draft: 3.67 ft / 1.12 m

Additionally, prospective buyers have the option to purchase the following items:

- Two new electric outboard motors, specifically Epropulsion Navy 6.0 Evo Longshaft, each boasting 6kw power, along with an Epropulsion Dual Remote control system. This package also includes two Osculati adjustable outboard motor brackets. The entire set is available for €7000.
- A new LiFePO4 51.2V 200Ah battery, offering approximately 11kw of power, is also available for purchase at €3000.
- For enhanced sailing capabilities, a new mainsail and asymmetrical spinnaker are offered at a price of €1200.
