

Super family boat Maxi 95 for sale

Description

We present the Maxi 95 boat for sale. We are lack of time for upgrading it and using constantly.

It has been our family boat since 2008, and we appreciate it much.

The boat was manufactured in 1976. Now itâ??s necessary for a new owner to renovate it inside and outside.

I replaced the engine with a new inboard engine type Vetus (model 2011) in spring 2012. The engine installation and a mechanicâ??s salary cost almost NOK 150,000.

A new cockpit canopy, sprayhood, boom cover, and foresail cover were made about 6 years ago. The cockpit canopy has only been used a few times.

A new electrical system was completed in the summer of 2022.

The boat was kept in the same harbor for the last three years and was not used due to the replacement of the electrical system and little time to finish this.

A good scraping and polishing job must be done by a new owner in spring.

The boat is in at Lakseberget marina in B  rum this winter. It can be kept there until spring if desired.

The Maxi 95 is a spacious boat for a 31 feet vessel. It has a spacious cockpit and is roomy inside. The aft cabin is practical (picture to come).

You get a fantastic boat for this money. Itâ??s a super family vessel.

The model is 1976, and all interior and exterior are authentic. A new toilet was installed in 2010. Some renovation must be done.

Equipment:

- Map plotter
- Sonar
- Button counter
- Autopilot
- Walla's heat for saloon and aft cabin
- Battery monitor
- Anchor winch ahead
- Bruce anchor on aft pullpit with chain and webbing
- Mainsail + storage bag
- Roller genoa + storage bag
- Original alcohol kitchen
- Pressing rack for winter storage is included
- Cockpit cushions
- Old lifebuoy/horseshoe buoy

Should be watched going forward:

Anchor windlass: Has worked fine for all these years but had troubles a couple of years ago. It doesn't work at the moment, but we haven't been able to see the cause. It must be checked.

The mast should be taken down and walked over (it can be done on your own if you have a mast lift). Wires have sometimes stuck.

A small leak on a window (a known problem) Should add new sealant.

The septic tank must be checked.

The cushions and covers are old (sewn by the previous owner) and can be reupholstered or replaced.

Tables and doors on the outside must be refurbished or bought new.

Most of the wood for the Maxi 95 is still available from Sweden. See e.g. <http://www.maxispecialisten.se>

Info:

Maxi 95 is a sailboat produced in about 1,350 copies in the period 1974 to 1983. The boat was designed by Pelle Pettersson and is described by many as one of his most successful. Source: [wikipedia](#)

A spacious sailboat with a suitable layout for both comfort and good sailing. The cockpit is large and comfortable. The boat is equipped with a steering wheel and has a very spacious cockpit solution with room for many.

Large table both outside in the cockpit and inside the salon.

Plenty of space on deck, as the boat has a flush deck (flat deck).
