

Custom-built 31 feet motorboat

Description

Custom-built 31 feet 9.35 m **motorboat** crafted in İzmir in **2024**, is a meticulously designed vessel that stands out for its balance, practicality, and **premium equipment**. It offers an unparalleled level of stability and performance, making it an exceptional **choice for both fishing and touring**.

Powered by dual 250-liter chrome gasoline tanks, it achieves a **maximum speed of 45 mph** and a comfortable cruising speed of 25 mph. With a 250-liter clean water tank and a 250-liter wastewater tank, it ensures convenience for extended trips.

The boat is not only functional but also exceptionally well-equipped, featuring a **Raymarine 12-inch Action Pro fish finder**, Raymarine 9-inch Action display, autopilot, **AIS** device, and surface **radar**, providing top-tier navigation and fishing capabilities.

Beyond its impressive navigation and fishing technology, Nuri Kaptan is fitted with premium extras that enhance comfort and efficiency. It boasts an Airmar 1kW M and L bronze transducer, a 60 kgf **bow thruster**, a saltwater deck washing system, a Webasto Airtop 5kW heater, and a 50-liter drawer refrigerator for added convenience.

The **Minnkota 100-inch virtual anchor**, powered by a 36V 200Ah lithium LiFePO4 battery, ensures precise positioning during fishing trips.

Additionally, the **Fusion Marine NMEA2000 music system** offers high-quality audio entertainment on board. The electrical system is robust, featuring a 450Ah gel battery setup, two separate engine battery systems, and a Sterling DC-to-DC charger.

As an added **bonus**, the boat comes fully stocked with fishing rods and tackle worth approximately EUR 5000, gifted to its new owner.

Can be transferred to Izmir for the new owner.
