

Cantieri Diano 24 for sale

Description

The **Cantieri Diano 24**, built in 1999, is a refined and spacious motor yacht renowned for its elegant Italian craftsmanship and luxurious interiors.

The yacht is powered by **two powerful Caterpillar 3412E** Dita engines (2 x 1400 HP) installed new in 2014, with only **800 engine hours**, offering reliable performance for long-range cruising.

Equipped with shaft drive transmission and four-blade bronze propellers, it includes essential technical systems such as **twin generators, a watermaker, inverter, air conditioning**, and full hydraulic and electrical support systems.

Designed for both comfort and functionality, the yacht offers an inviting layout with **three main guest cabins**: a full-beam master suite with two bathrooms, a VIP double cabin with en-suite shower, and a triple cabin with Pullman beds and separate facilities. Crew accommodations are generous, featuring two dedicated crew cabins and a separate bathroom.

The main deck includes a bright salon with leather seating, a formal dining area, and a fully equipped galley, while the **flybridge hosts a bar, grill, and lounge area under a bimini top**.

Teak decking, high-end appliances, satellite TV, and surround sound enhance the onboard experience, making the Cantieri Diano 24 ideal for private cruising.
